INFIZIA: Empowering Businesses with Digital Solutions

INFIZIA is a forward-thinking technology solutions provider specializing in cutting-edge AI-powered **web and mobile app development**, empowering businesses with custom digital solutions that enhance their online presence and streamline operations for greater efficiency and scalability. We go beyond traditional development by integrating emerging technologies like **blockchain**, offering secure and transparent data handling, smart contract development, and decentralized applications (dApps) that enable organizations to build trustworthy, future-ready ecosystems.

Infinite Intelligence

Powering Digital Transformation

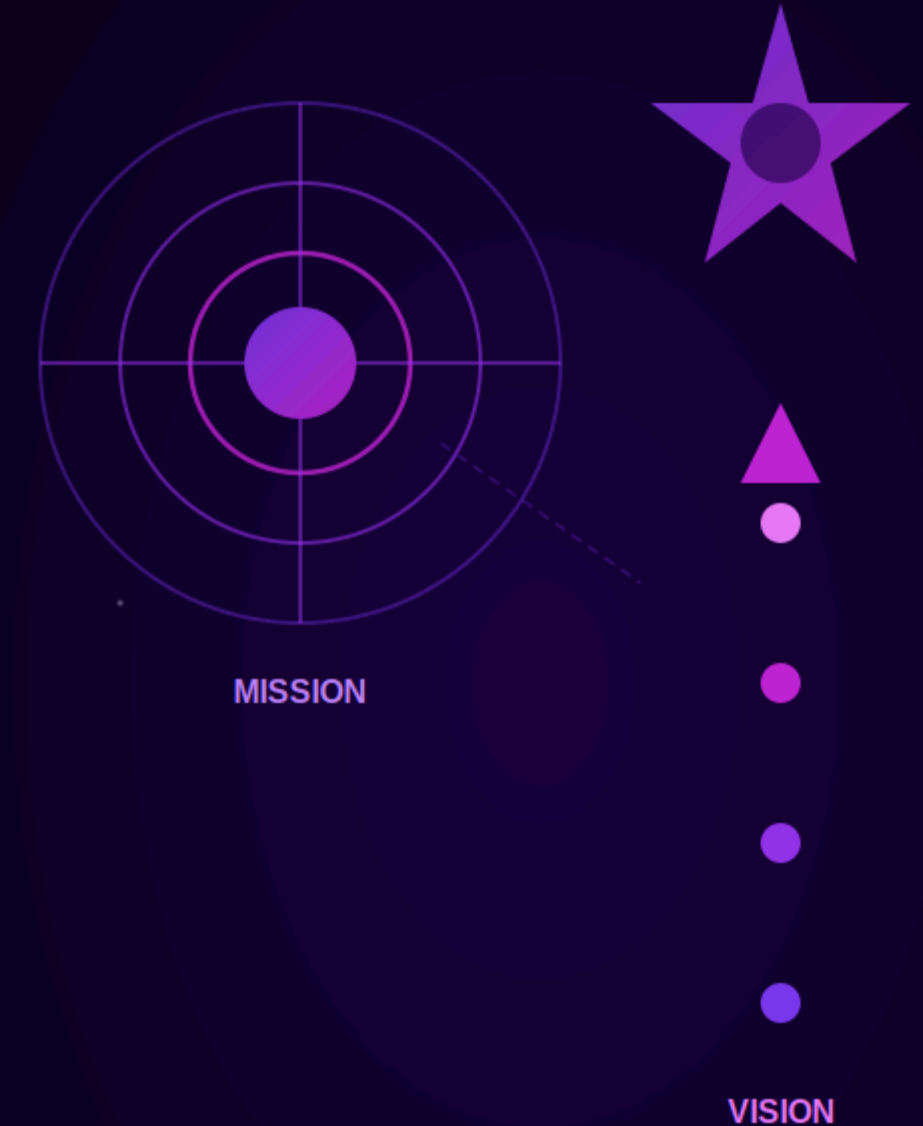

Our Mission & Vision

Mission:

TO EMPOWER BUSINESSES WITH CUTTING-EDGE DIGITAL SOLUTIONS THAT DRIVE EFFICIENCY, ENGAGEMENT, AND GROWTH.

Vision:

TO BE A GLOBALLY RECOGNIZED TECH COMPANY KNOWN FOR ITS EXCELLENCE IN WEB AND MOBILE APPLICATION DEVELOPMENT, DELIVERING HIGH-IMPACT SOLUTIONS THAT TRANSFORM BUSINESSES WITH **INFINITE INTELLIGENCE.**

Purpose-Driven Innovation

Transforming businesses with infinite intelligence

Overview of EyeCON

EyeCON is an AI-powered mobile-first sales platform built to compress the entire sales motion onto a single screen. It combines automated **company research** with a native cloud dialer that records and transcribes every call, plus live meeting capture with diarized transcripts. By leveraging Gen-AI and custom-trained **agentic systems**, EyeCON helps sales teams keep every interaction on one Lead timeline.

Traditional sales tools force reps to juggle five disconnected apps. EyeCON consolidates the entire workflow so context follows the rep – not the other way around – improving conversion and reducing busywork.

The Solution: One Mobile-first AI Sales Platform

- ✓ Chat with your research and your meetings in plain English.
- ✓ AI company research delivers a 360° brief before you dial.
- ✓ Native cloud dialer with auto-recording, transcript, and summary.
- ✓ Live Meeting capture for physical and video conversations.
- ✓ Unified Lead timeline across research, calls, meetings, and emails.
- ✓ One-tap Minutes-of-Meeting emailed straight to attendees.

One Unified Platform

Everything connected. Context follows the rep.

Revolutionizing Sales: Next-Gen Capabilities for the Modern Rep

 Chat with Research

 Native Cloud Dialer

 Auto Call Recording + Transcript

 Live Meeting Capture

 Speaker-Diarized Transcripts

 Mood + Sentiment Read

 Auto-Extracted Action Items

 Email MoM in One Tap

 Chat with Meeting Conversation

 One Lead. One Timeline.

Key Features : EyeCON

AI-Powered Company Research

EyeCON automatically pulls a 360° brief on any company before you dial. Funding, team size, tech stack, recent news, and the right person to call – consolidated into a single account brief that's ready when the rep is.

Native Cloud Dialer :

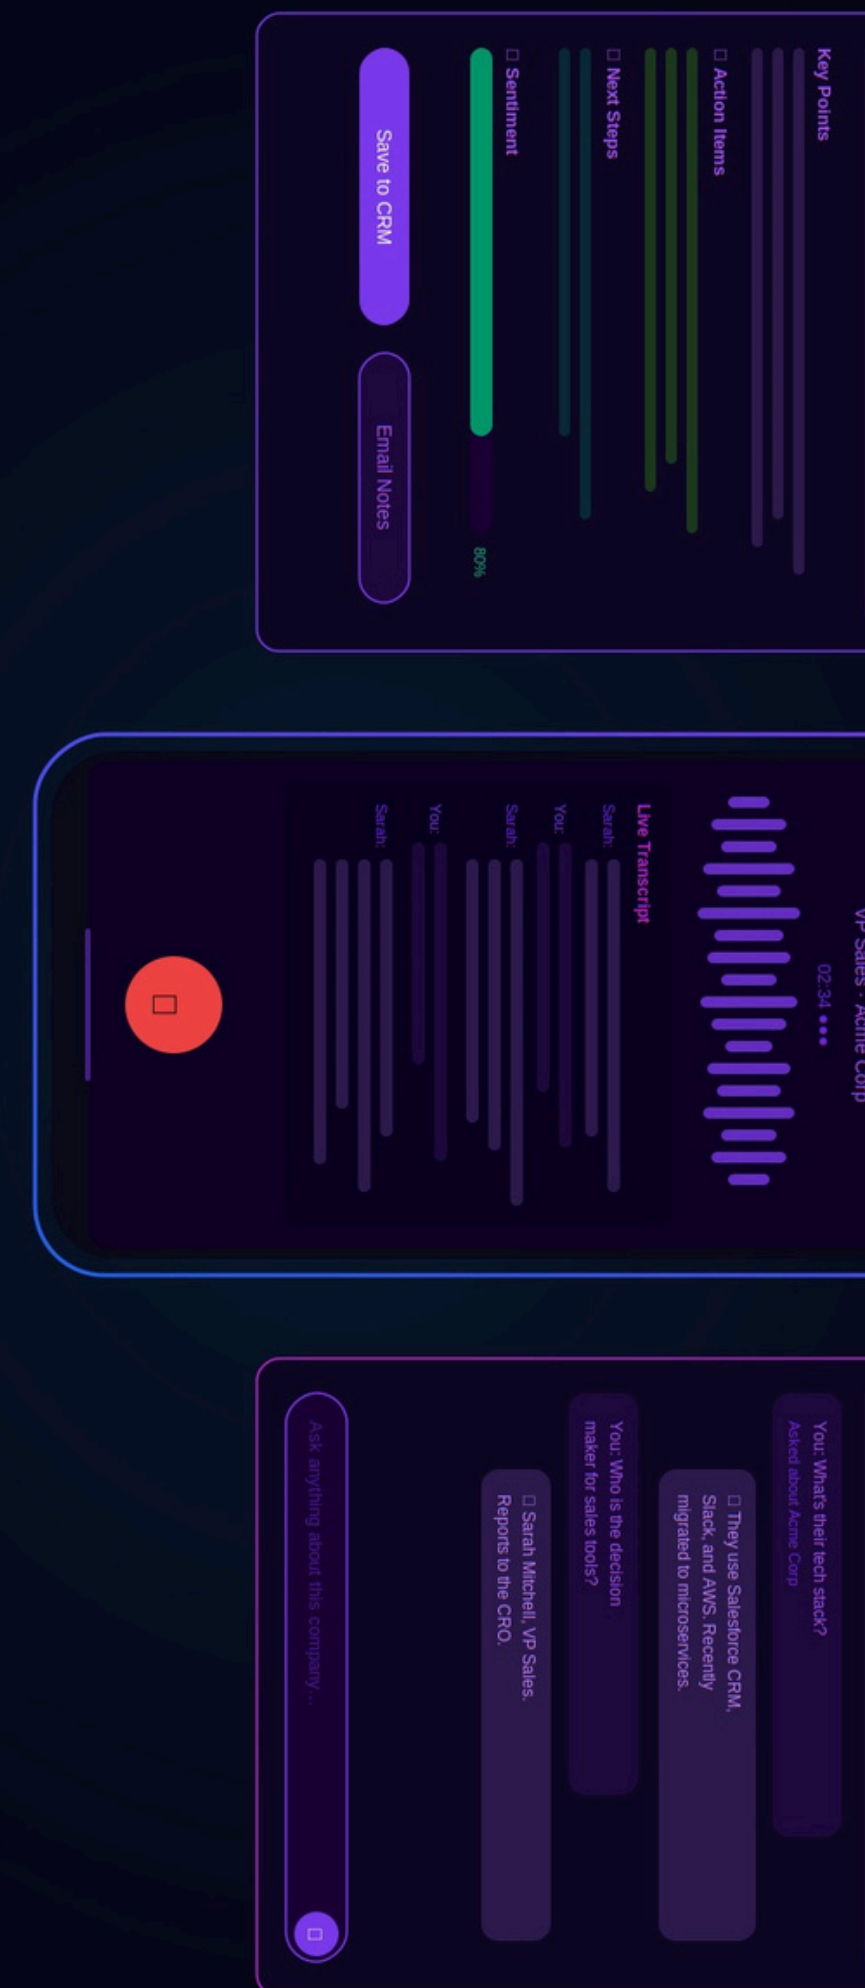

After EyeCON pulls a brief, ask anything about that company in plain English. Answers come grounded in the research EyeCON pulled.

Call Summary :

Every call is automatically transcribed, summarized, and tagged with next-step action items – drafted by the time you hang up. Notes that took 15 minutes now take zero.

Chat with Company Research :

Call directly from the app. One-tap dialing, automatic call recording, regional number support, and full call history per Lead. Click-to-call from anywhere in EyeCON.

Live Meeting Capture :

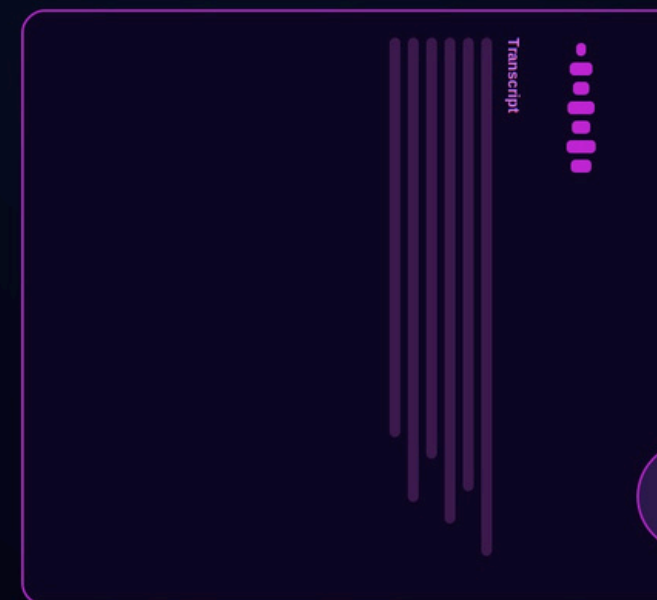

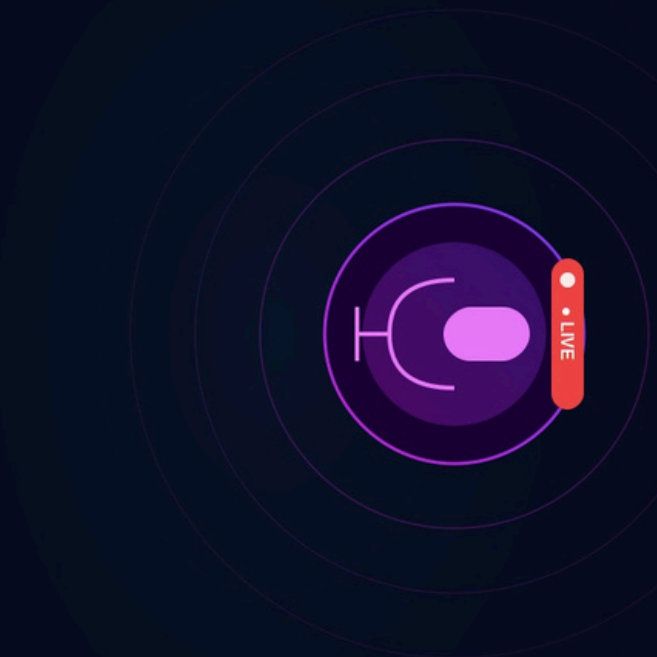

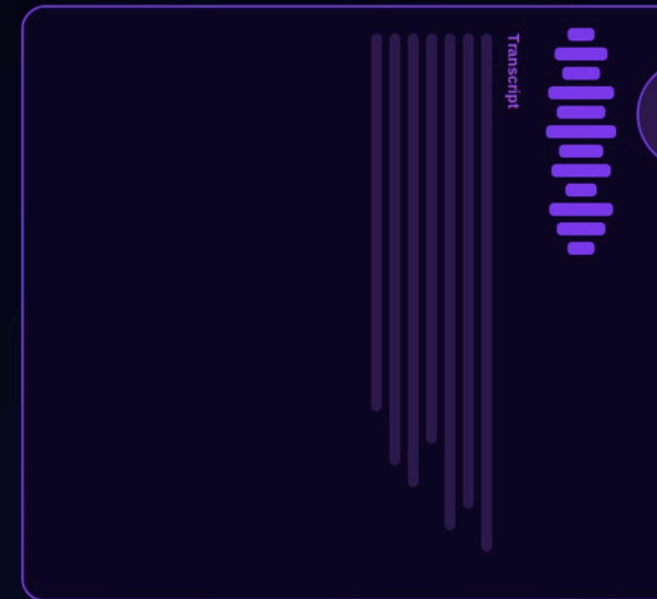

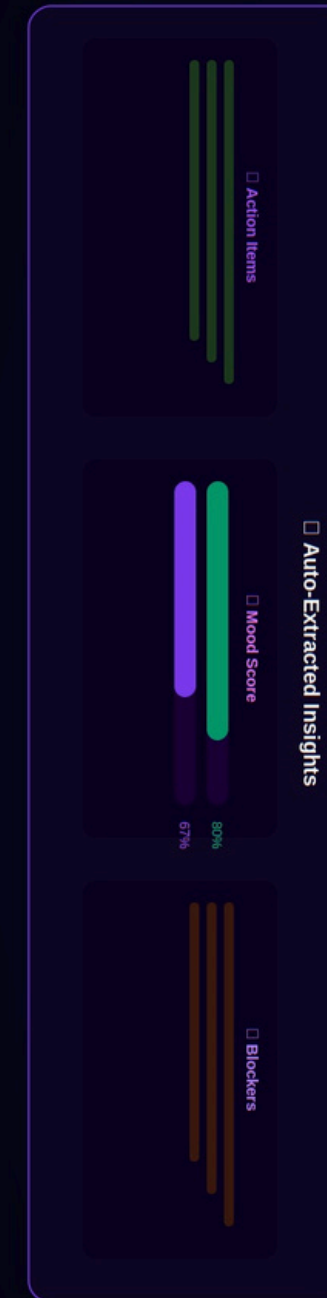

Open Live Meeting before walking into a client office or joining a video call. EyeCON captures the entire conversation through your phone's microphone or video conference audio — without a separate recorder app.

Speaker-Diarized Transcript :

EyeCON delivers a fully diarized transcript with speaker separation, accurate even across multiple speakers in busy environments.

Mood + Insights + Action Items :

After every meeting you get mood + sentiment scoring, auto-extracted action items, blockers, and commitments — what used to take a manual hour now happens automatically.

Email Minutes-of-Meeting :

Send a polished MoM straight from EyeCON to attendees, with action items, owners, and dates. Body text auto-drafted from the meeting transcript – no copy-paste, no formatting.

Chat with Meeting :

After the meeting, ask EyeCON anything about what was said. “What did the CTO commit to?” Answers come pulled from the actual transcript – not paraphrased, not summarized away.

Answers grounded in your actual transcript

Ask anything about your meeting...

One Lead. One Timeline :

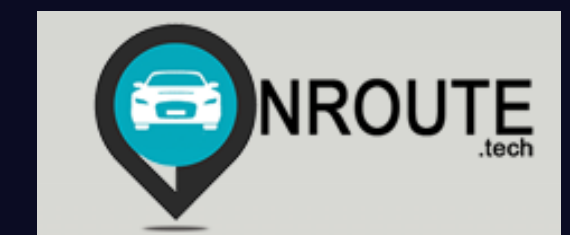

Every research note, call, transcript, meeting, MoM, and email tied to one continuous timeline per Lead. Searchable, filterable, accessible from any device. No more “where did I save that?” moments – ever.

Context follows the rep.

Not the other way around.

OUR PAST CUSTOMERS

Thank You !

We appreciate the opportunity to introduce EyeCON. Compress your sales motion onto one mobile-first surface – research, dial, meet, recap – and let your reps spend their day selling, not searching.
