Empowering Businesses with Digital
Solutions

Empowering Businesses with Digital Solutions

INFIZIA is a forward-thinking technology solutions provider specializing in cutting-edge AI-powered web and mobile app development, empowering businesses with custom digital solutions that enhance their online presence and streamline operations for greater efficiency and scalability. We go beyond traditional development by integrating emerging technologies like blockchain, offering secure and transparent data handling, smart contract development, and decentralized applications (dApps) that enable organizations to build trustworthy, future-ready ecosystems.

INFIZIA

Impact of AI Implementation on Organizational Performance

Infizia simplifies and accelerates your processes by transforming complex research into actionable results for you to focus on your core business. AI adoption drives measurable gains across core business areas improving speed, efficiency, customer experience, and cost management

OUR EXPERTISE

Enterprise Web & App Development

Custom software solutions to optimize workflows, increase productivity, and enhance business efficiency.

Enterprise Agentic AI Solutions

Infizia builds agentic AI products and the platforms they run on — autonomous systems that perceive, reason, and act across your enterprise.

Blockchain Development and ICO Listing

Powerful blockchain development solutions with secure, decentralized technologies along with ICO listing.

Red Hat Stack

Enterprise-grade Red Hat stack: RHEL, OpenShift, Ansible, and JBoss — delivering scalable, secure, and cloud-native infrastructure for mission-critical workloads.

Google Cloud & Infrastructure

Comprehensive cloud management ensuring performance, scalability, and cost efficiency across Google Cloud (GCP).

Secure, scalable cloud-based applications robust backend solutions.

AI DRIVEN PRODUCTS AND SERVICES

HR & Workforce:

1. **Convenor:** AI driven hiring and HRMS automation platform from resume screening to onboarding.
2. **Meetrix: Mobile first** AI-Powered Meeting Summarizer & Action Tracker from live meetings.
3. **Performix:** Smart employee appraisal, rewards, and feedback system with structured approval workflows.

Sales and Customer Support:

1. **EyeCON:** EyeCON is the all-in-one mobile-first AI sales platform that unifies company research, calling, and meeting intelligence around a single Lead record
2. **Intellix:** Intelligent AI call center platform for automating customer conversations and support operations.

HealthCare :

1. **Vitacare:** AI Receptionist & Appointment Automation with VitaCare platform.

Intelligence and Research:

1. **Infera:** AI powered company intelligence platform generating deep business insights from minimal inputs.

AI DRIVEN PRODUCTS AND SERVICES

Finance & Operations Sector:

1. **EyePOS:** EyePOS unifies point-of-sale billing, inventory control, and full-stack accounting on a single platform.
2. **DocuMind:** AI powered intelligent document processing platform.

Industrial Intelligence and IOT:

1. **OpsSight:** AI-driven industrial intelligence platform delivering real-time visibility into mining operations through IoT-powered data monitoring and smart decision systems.

Education:

1. **AI Tutor** (Learnova)
2. **LMS** (Learning Management System)

E-Commerce:

1. Custom **E-Commerce** Platform.

Media and Publishing:

1. **E-News Portal:** Digital publishing platform for blogs, news portals, and e-newspaper management.

Red Hat Stack Implementation

Red Hat stack delivering enterprise-grade, open-source, and cloud-native infrastructure automation.

1. RHEL deployment for secure, stable enterprise Linux environments.

2. OpenShift container platform for Kubernetes-native app orchestration.

3. Ansible automation for IT infrastructure provisioning and compliance.

4. Integration with CI/CD pipelines, DevSecOps toolchains, and hybrid cloud.

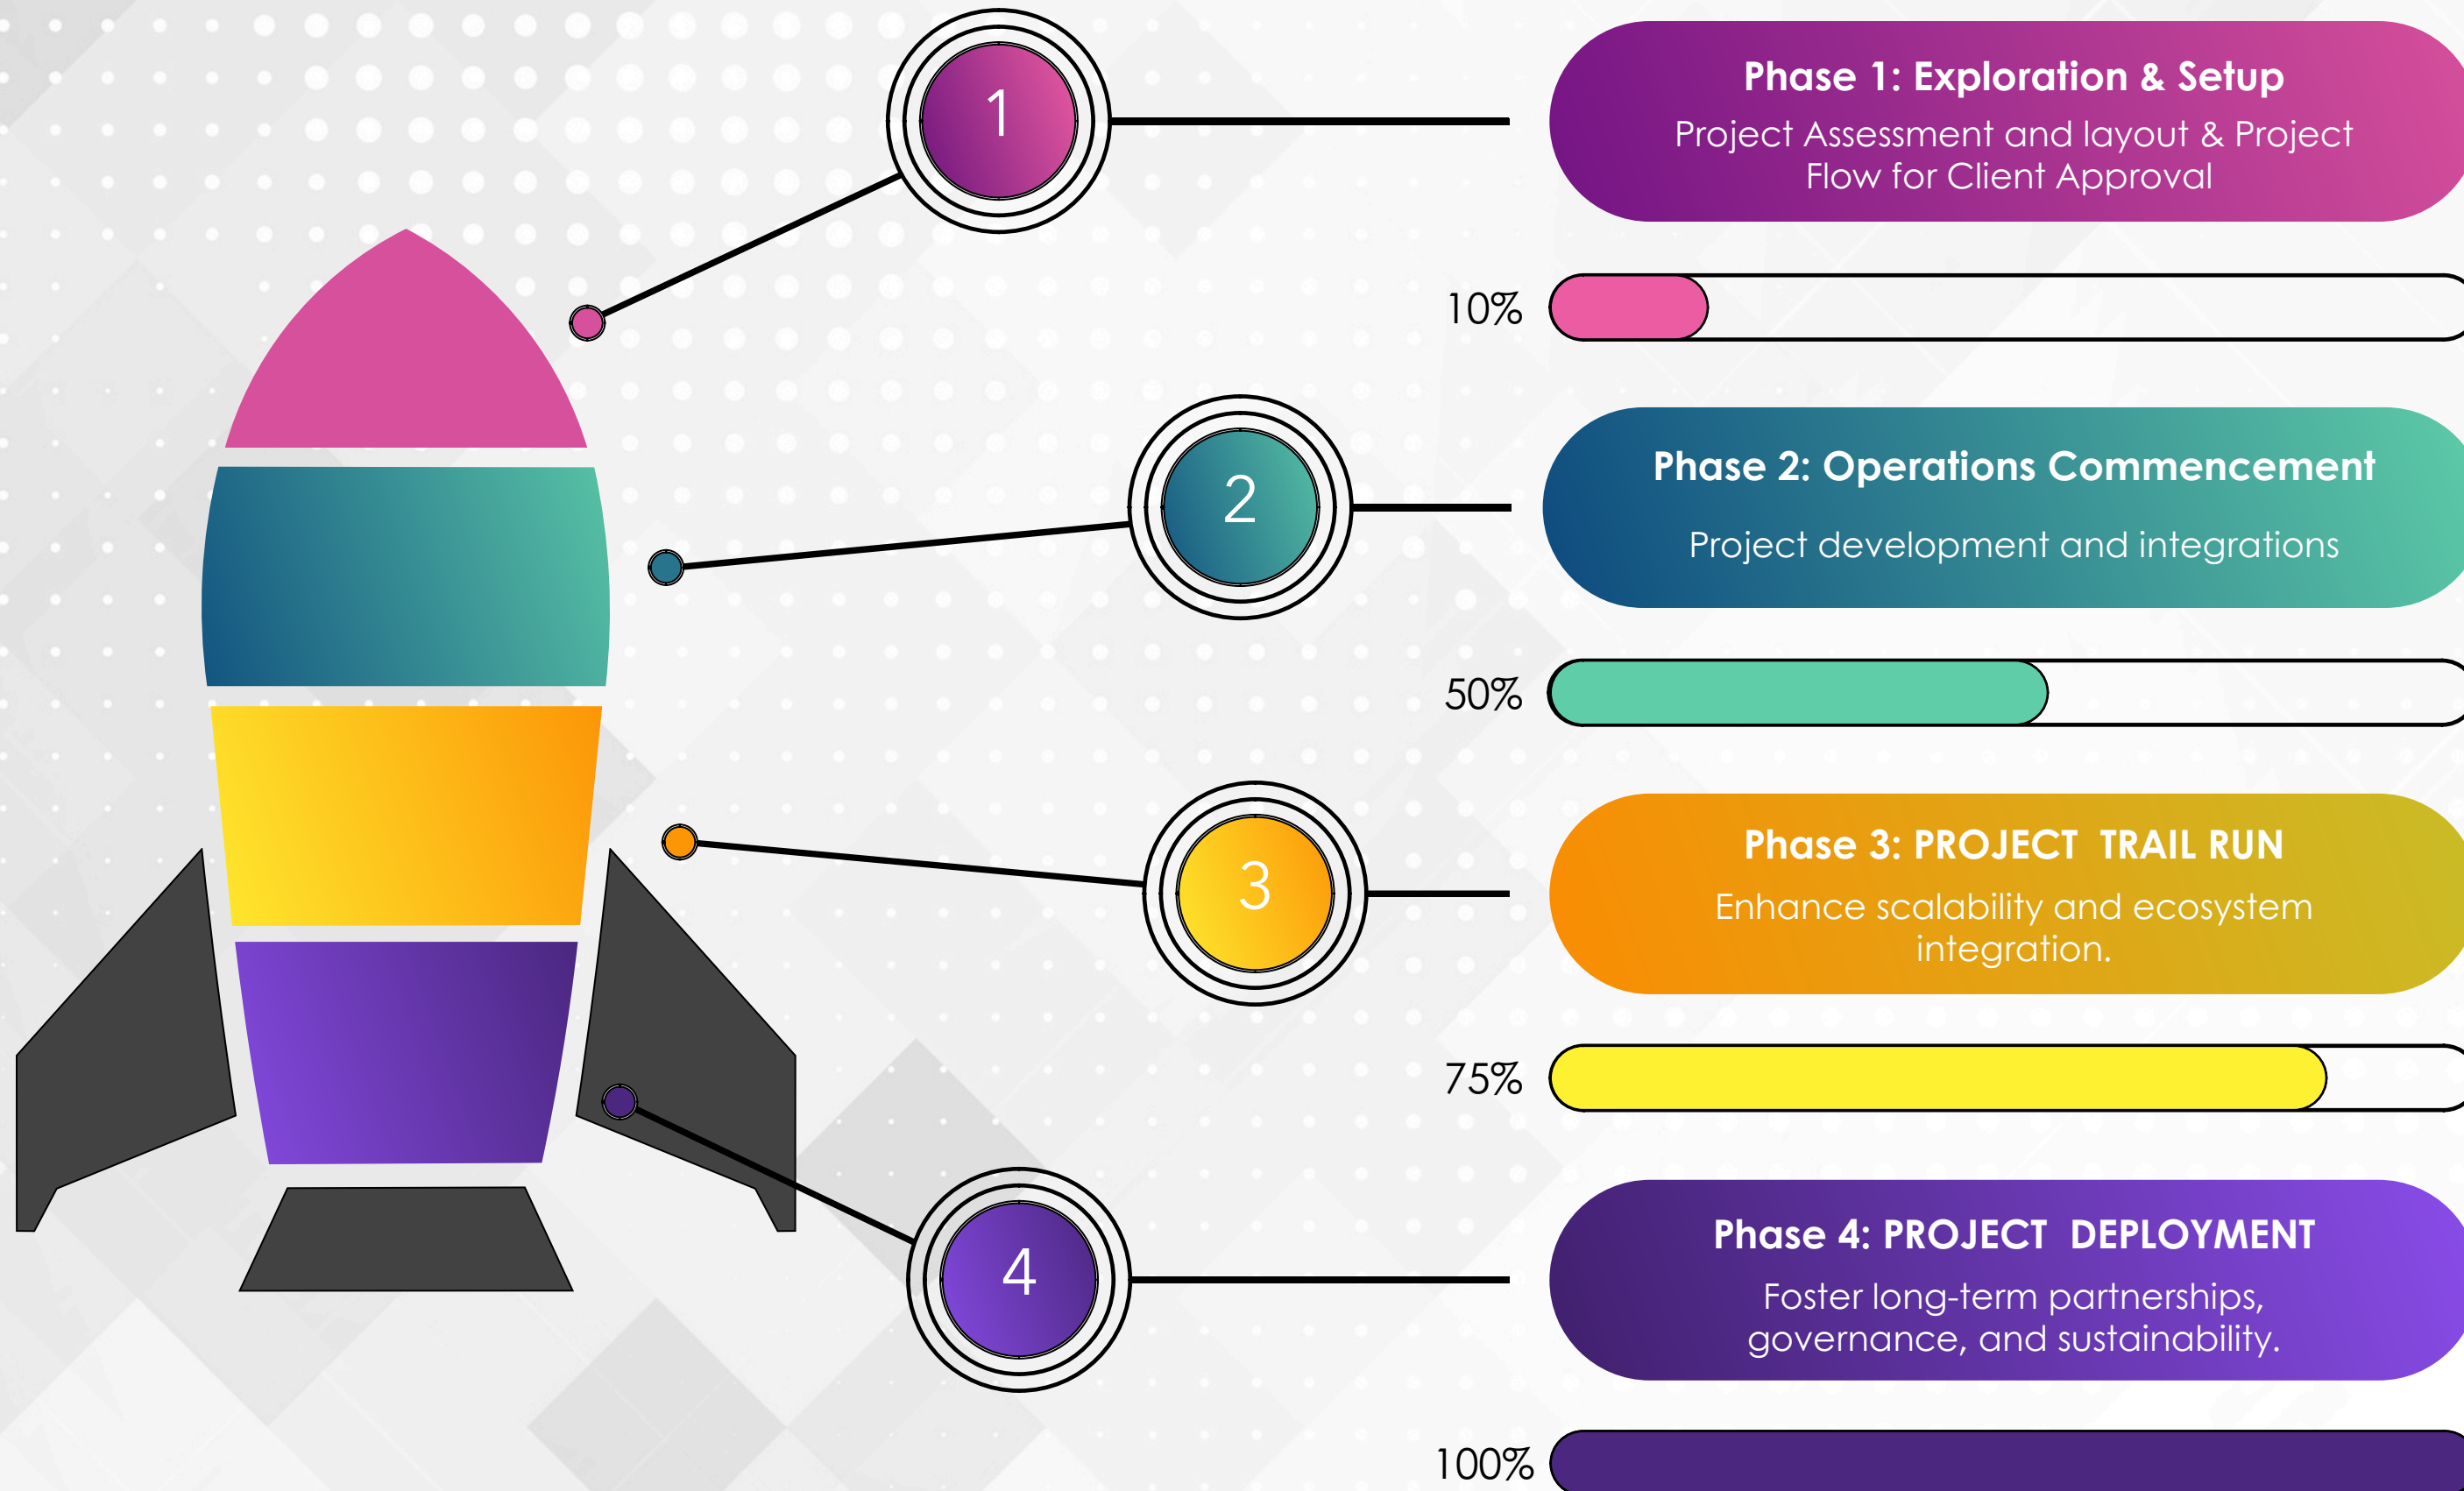

1. Red Hat Satellite for automated patch management and subscription control.

2. JBoss/WildFly middleware for scalable Java EE application hosting.

3. OpenShift GitOps and ArgoCD integration for continuous delivery.

4. Faster on-premise and cloud deployment with Red Hat support SLAs

PROJECT IMPLEMENTATION PROCESS

OUR CORE STRENGTHS

- **EXPERIENCED TEAM:**
- An aggregate of 50+ years of Total experience of the team with updated knowledge of the latest technology
- **CLIENT CENTRIC APPROACH:**
- Understanding your business goals to craft tailored solutions.
- **SECURE:**
- Customize, Brand and Scale with Security
- **LOW CAPEX:**
- Low development cost + Flexible retainer plans
- SLA protocols and support.
- **SOURCE CODE AVAILABILITY:**
- Fully integrated ecosystem with library resources and source code at deployment for a hassle-free experience.
